Computer Science Engineering Diploma
Percentage: 86.71%

Ambad, Jalna
December 2020 - July 2023

Genba Sopanrao Moze College of Engineering, Balewadi
Information Technology Bachelor of Engineering

Pune, India
September 2023 - Present

Skills

Programming Languages: Java, Python, C++, JavaScript, JavaScript (ES6+), HTML5, CSS3, PHP
Libraries/Frameworks: React.js, Node.js, Express.js
Tools / Platforms: Git, npm, XAMPP
Databases: SQL, MongoDB, PHPMyAdmin

Profile Summary

Ambitious BE Information Technology student and hands-on project experience in developing data-driven applications. Proficient in Python, Java, and JavaScript, I have built and maintained robust ETL pipelines, managed SQL/MySQL databases, and designed intuitive data visualizations using Power BI and Tableau. Adept at collaborating with cross-functional teams in Agile environments, I leverage my strong analytical and problem-solving skills to transform complex datasets into actionable business insights. Eager to contribute innovative solutions and grow within a dynamic, data-centric development team.

Projects / Open-Source

Chat Bot with User Authentication and Room Creation | [Link](#) Python
Designed and implemented a robust chatbot system in Python that incorporates user authentication, error handling, and the creation of separate chat rooms for each user. The project provides a secure and dynamic chat environment, allowing users to communicate in private rooms while maintaining login details and chat history.

E-Commerce-Website-For-Ganraj-Cake-and-Pastries | [Link](#) PHP, JavaScript, HTML, CSS, XAMPP
Developed a comprehensive e-commerce website for Ganraj Cake and Pastries using PHP, HTML, JavaScript, CSS, and XAMPP. The website encompasses a range of features, including user authentication, a product catalog with dynamic loading from the PHPMyAdmin database, order processing, shopping cart functionality, and a contact option for users to get in touch with the developer.
Technologies Used:
Server: XAMPP for local server setup.
Backend: PHP for server-side scripting.
Frontend: HTML5, CSS3, and JavaScript for interactive features.
Database: PHPMyAdmin for storing user data, product details, and order information

DevConnect - A Developer Networking Platform MERN Stack
DevConnect is a social networking platform designed for developers to connect, share, and collaborate. It includes features like user authentication, profile creation, project showcasing, and a community forum for discussions.
